EXPERIENCE

Fidelity Investments - Software Engineer Intern

January 2023 – August 2023

- Actively participated in common engineering practices i.e., code/design reviews, environment strategy, build/deployment pipeline development.
- Participated throughout the full product development process, continuously delivering updated product versions through CI/CD tools.
- Gained a solid understanding of Python, Java, Spring Framework and AWS Microservices.
- Established efficient communication lines for smooth teamwork across global teams.

Fruitlab Media Ltd - Community Manager

August 2020 – March 2022

- Lead generation and cold outreach for acquisition of new potential content creators.
- Data analytics in relation to user account funds – identifying fraudulent behaviours.
- User support with general issues e.g., orders, bugs, general inquiries.
- Hosted and managed tournaments within the e-sports community.
